

The Artist's Eye Supply List

The Artist's Eye learning to understand the visual language

Kick-start your creativity and learn about the basic elements and principles of good design. Learn why some colors fizz while others explode, why some quilts calm and some excite. Examples from every genre in the quilt world show how you can use a broader color palette to showcase your favorite blue, or more intentional methods for using differently scaled prints.

This lecture and critique session will help you learn few simple tools from the artist's kit that will help you take your work, whether traditional or contemporary, to the next level. Audience participation keeps viewers engaged after the lights go down and the gorgeous quilts go up on your screen.

Come enjoy a day of constructive and creative learning as we explore ways to analyze your artwork. We will discover techniques for gaining the fresh eyes necessary to objectively evaluate artwork and learn which questions to ask ourselves to discover and solve design issues. Lyric will help you critique your own work in an emotionally safe, informative, and supportive way.

Lyric translates the language of ART into delightful and simple to understand concepts and presents them in such an entertaining and practical way that everyone goes home thinking, "I can do that!" She is on a crusade to convince every quilter that they can use the principles of art in whatever kinds of quilts they love to create.

Skill level: All levels

Supply List:

- notebook and writing implement
- bring a finished artwork you wish us to critique. There will be time for 4 critiques
